

Says
What have we heard them say?
What can we imagine them saying?

Thinks
What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

India is the second largest producer of wheat and rice, the World major food staples

It provides employment opportunities to the rural agricultural as well as non agricultural labours

The Agriculture sector employes nearly half of the workforce in the country. However it contributes to 17.5%of the GDP (at current prices in 2015-16)

The history of agriculture in India dates back to the Neolithic period.

Agriculture growth as been fairly volatile over the past decade, ranging from 5.8% in 2005-2006 to 0.4% in 2009-2010 and -0.2% in 2014-2015.

A way of grouping countinuous data into discrete categories are bins in tableau

INDIA'S AGRICULTURAL CROP PRODUCTION 1997-2021

Agiculture is the main source of income for major part of our country's population.

It provides food, raw material for industries and product for export.

It ensures the country food security and produce a variety of industrial raw materials.

Indian agriculture began by 9000 BCE on North-West India with the early cultivation of plants and domestication of crops and animals.

Agriculture is the mainstay of Indian economy because about 60% of our population depends directly or indirectly on agriculture.
